<td><strong>$349.1</strong></td>
<td><strong>$1,590.3</strong></td>
</tr>
</tbody>
</table>

From the revenue produced, 30% is returned to localities for transportation projects and 70% is dedicated regionally. Regional funding can be used for:
- Urban or Secondary road construction,
- Capital projects that reduce congestion,
- Public transportation, and
- Mass transit capital.

Regional projects must be approved by the Northern Virginia Transportation Authority.

Any locality not enacting previously authorized local revenue options will have their local returned revenues reduced by the amount that would have been generated from all authorized local options. (Funding returned to regional pot.)

### Hampton Roads Regional
