

Strategic Investment Fund Allocations

In this first round of funding, 13 proposals were awarded for an aggregate investment of approximately \$26 million.

These projects help provide the research, infrastructure, personnel, technology and other resources needed to meet the goal of supporting the most transformative projects of the University's third century.

❖ **Academic Experience**

- Funding graduate student fellowships
- Creating a professional master's program to address police officer training
- Supporting work-study research opportunities for students with financial need
- Providing seed funding for a global commerce program

❖ **Research Support/Infrastructure**

- Supporting next-generation research infrastructure
- Funding for high-performing and secure computing clusters
- Developing a strategic plan for the library of the future

❖ **Research**

- Investing in a cyber-physical lab
- Expanding opportunities for education research faculty
- Supporting the Center for Catalytic Conversion of Natural Gas
