REPORT OF THE SUBCOMMITTEE
on
COMPENSATION AND RETIREMENT

Mr. Chairman and Members of the Committee:

On behalf of the Compensation and Retirement Subcommittee, I am pleased to offer you our budget recommendations.

Consistent with the philosophy of our Chairman, the Compensation and Retirement Subcommittee approached this session with three primary objectives. The objectives of our subcommittee heading into this session included 1) building upon our efforts to ensure that we have a healthy and viable retirement system for our public employees for many years to come; 2) providing some relief to our localities as they struggle to deal with the fiscal challenges we have all faced over the last several years; and, 3) find a way to compensate our hard working state employees who at this point have gone 4 years without a pay raise. I am extremely pleased to state that we have been able to pass legislation this session and now make budget recommendations that are intended to meet all three of these goals.

I am pleased to report that with your support we are able to include in our recommendations \$367 million general fund in additional funding for VRS retirement contribution payments in the next biennium. In total, the recommendations included in the subcommittee report will result in approximately \$4.0 billion in total retirement contribution payments during the next biennium from the state, political subdivisions, school systems and employees.

While fully funding the rates is important, we on the subcommittee continue to emphasize a two-pronged approach to ensuring a healthy retirement system. We believe adequate funding must also be accompanied by reasonable and responsible pension reform. I firmly believe that enactment of House Bill 1189 during the

2010 session, the Chairman's bill, will long be viewed as a turning point where we were able to enact legislation which will help us maintain a sound and financially viable retirement system for generations to come. House Bill 1129 and House Bill 1130, both of which were approved by this committee and passed the House earlier this week build upon these reforms and enactment of these pieces of legislation will continue our efforts to ensure a fair and financially viable system in the future.

Regarding our second objective of providing relief to our localities we are pleased to recommend a policy change which would require the VRS contribution rates for our political subdivisions to be based on the same policy assumptions, most notably the eight percent assumed rate of return, that we have consistently adopted in setting the retirement contributions for our own employees. We estimate that this will reduce the cost for our localities by \$70 million compared to their current cost to help offset the increase in their required payments for the teacher's retirement system.

Lastly, I am especially pleased to report that the subcommittee recommendations include a revenue reserve that, contingent on the state meeting our current revenue projections, will provide a two percent salary increase for our state employees and employees of our constitutional officers in fiscal year 2014.

By the time we have reached fiscal year 2014 our employees will have gone close to 6 years without a salary increase. We have had to make many difficult decisions throughout the budget in recent years and due to our financial pressures of recent years, a raise unfortunately has not been possible. However, we must always remember the hard work and significant contributions our state workers make to the Commonwealth.

Finally, Mr. Chairman, I would like to take this opportunity to thank you for your guidance and support during the Session as well

as the members of this Subcommittee for their hard work this Session.

Mr. Chairman and fellow Committee members, I will ask staff to take you through our detailed recommendations, and then I hope it will be your pleasure to adopt our Subcommittee report.

Respectfully Submitted by the House Appropriations Subcommittee
