

# GRAFTON

INTEGRATED HEALTH NETWORK

## **A Center of Excellence in Serving Individuals with Complex Needs In Autism, Intellectual and Developmental Disabilities, and Behavioral Health**

Throughout its nearly 60-year history, Grafton – a multi-state provider, serving children, adolescents, and adults with co-occurring intellectual, developmental, and psychiatric disabilities – has worked closely with external agencies and other partners, helping clients to become active participants in their communities.

Grafton serves individuals with autism, mental health and substance abuse issues, intellectual and developmental disabilities, and co-occurring diagnoses. The organization often takes - and, based on clearly defined indicators, is successful with - the most at risk and vulnerable populations.

## Our Approach

Grafton's approach is data-driven, trauma-sensitive and person-centered, with each plan of care as unique as the individual it serves. Employing a philosophy of comfort versus control, the organization helps clients thrive in the least restrictive environment. Through its comprehensive assessment and treatment approach, Grafton is able to deliver measurable, long-term cost savings to families, communities and government agencies.

## Our Services

Grafton provides a full continuum of services - from short-term stabilization and residential services to outpatient, educational, and career and technical training.
