

Legislative

There are no changes in the budget, as introduced, for fiscal year 2010 for the Legislative Department, when compared to Chapter 781 of the 2009 Acts of Assembly.

The budget, as introduced, for the 2010-12 biennium includes no changes from Chapter 781, the appropriation act for the 2008-10 biennium, other than: (1) the technical distribution of budget reductions and other amounts from central appropriations, and (2) a reduction in federal funds for the Commission on the Virginia Alcohol Safety Action Program (VASAP) to reflect more accurately the agency's estimate of anticipated federal funds. The budget, as introduced, includes \$69.3 million each year from the general fund and \$3.6 million from nongeneral funds, and 609 positions from all funds, for the agencies in the Legislative Department.
