Page 40, line 12, strike "\$28,354,089" and insert "\$35,040,950".

Explanation:

(This amendment provides additional general fund support of \$13.4 million in the second year for sheriffs. The funding is equally divided between two programs -- Financial Assistance for Local Law Enforcement and Financial Assistance for Local Court Services. The introduced budget developed by Governor Kaine reduced funding for the Local Law Enforcement and Local Court Services programs and offset the general fund reduction with a public safety fee based on a tax on insurance premiums. This public safety fee was rejected by the 2010 General Assembly. While additional general fund support was provided to offset nearly all reductions for the sheriffs, the Compensation Board did not discover that the public safety fund had been eliminated and built the public safety fund amounts in their prospective budgets for sheriffs.)

Included in the appropriation for this item is \$72,370 the second year from the general fund for the estimated net increase in the operating costs of adult correctional centers resulting the enactment of House Bill 1601 by the 2011 Session of the General Assembly. This amount shall be paid into the Corrections Special Reserve Fund, established in accordance with § 30-19.1:4, Code of Virginia."

Explanation:

(This amendment provides for the expected increase in correctional beds necessary from the expansion of aggravated involuntary manslaughter to include instances in which a driver unintentionally causes the death of another person while operating a motor vehicle without a license or while his or her license is suspended or revoked.)

"I. The Compensation Board shall estimate biannually the number of additional law enforcement deputies which will be needed in accordance with § 15.2-1609.1, Code of Virginia, in any county without a police force or any city without a police force that was created by the consolidation of a city and a county subsequent to July 1, 2011, pursuant to the provisions of Chapter 35 (§ 15.2-3500 et seq.) of Title 15.2, Code of Virginia. Such estimate of the number of positions and related costs shall be included in the board's biennial budget request submission to the Governor and General Assembly. The allocation of such positions, established by the Governor and General Assembly in Item 67.90 of this act, shall be determined by the Compensation Board on an annual basis. The annual allocation of these positions to local sheriffs' offices in any county without a police force or any city without a police force that was created by the consolidation of a city and a county subsequent to July 1, 2011, pursuant to the provisions of Chapter 35 (§§ 15.2-3500 et seq.) of Title 15.2, Code of Virginia, shall be based upon the most recent final population estimate for the locality that is available to the Compensation Board at the time when the agency's annual budget request is completed. The source of such population estimates shall be the Weldon Cooper Center for Public Service of the University of Virginia or the United States Bureau of the Census. For the first year of the biennium, the Compensation Board shall allocate positions based upon the most recent provisional population estimates available at the time the agency's annual budget is completed."

Explanation:

(This amendment requires the Compensation Board to distribute the existing law enforcement deputies assigned to either Alleghany County or the City of Covington to remain assigned the area once those two jurisdictions are dissolved and re-established as the City of Alleghany Highlands. Without this language, law enforcement deputy positions might be given to another locality. The amendment does not required any additional funding, but ensures positions assigned to the

"A. The funds appropriated in this item shall be distributed to localities with qualifying police departments, as defined in §§ 9.1-165 through 9.1-172, Code of Virginia (House Bill 599), except that, in accordance with the requirements of § 15.2-1302, Code of Virginia, such funds shall also be distributed to a city without a qualifying police force that was created by the consolidation of a city and a county subsequent to July 1, 2011, pursuant to the provisions of Chapter 35 (§ 15.2-3500 et seq.) of Title 15.2, Code of Virginia. Notwithstanding the provisions of §§ 9.1-165 through 9.1-172, Code of Virginia, the total amount to be distributed to localities shall be \$178,686,119 the first year and \$160,012,837 the second year. The amount to be distributed to each locality in each year shall be proportionate to the amount distributed in fiscal year 2010. The amount to be distributed to such a city created by consolidation shall equal the sum distributed to the city during the year prior to the effective date of the consolidation, as adjusted in proportion to the increase or decrease in the total amount distributed to all localities during the applicable year."

Explanation:

(This amendment would limit the distribution of House Bill 599 funds to a city without a police force that was created by consolidation after July 1, 2011. In addition, it would make it easier for the Department of Criminal Justice Services to calculate the appropriate sum to be distributed. The normal calculation is based on such factors as population, crime rate, and social service case load, which will be difficult to compile for the area of the former City of Covington, because that area will be part of the much larger City of Alleghany Highlands. Instead, the amendment would direct the department to adjust the distribution up or down by the same proportion as changes made to the total amount appropriated by the General Assembly to all localities.)
